As there ſeem'd to be an inclination in the inhabitants of this City, to have the ſteeple built upon the foundation laid many years ago, the Veſtry were encouraged to attempt a Subſcription; but as of the money they could raiſe, including what little is yet outſtanding, falls much ſhort of the ſum neceſſary to compleat the Work, as will be ſhewn by a ſtate of the account of what is already done, they are therefore under a neceſſity to take this method, or the building remain unfiniſhed.

We hope that a work of this kind, which is purely ornamental, will meet with encouragement from all well-wiſhers to the credit, Beauty and proſperity of Philadelphia.

Saturday laſt Captain M'Ilwaine arriv'd here in four Weeks and three Days from Londonderry, by whom we have the following Advices, viz.

TURIN, July 29.

THE King having lately given Orders for filling the Magazines of all our Frontier Places with all Sorts of Ammunition and Proviſions, they are now actually at work in carrying thoſe Orders into Execution.

Warſaw, Auguſt 9. According to Advices from Conſtantinople, that are looked upon as very authentick here, the Grand Signor is very much perplexed ſince the true Deſign of the late Commotions was to force him into a War, and that it is feared the War Party, who ſupport this Meaſure, will not be quiet till they have brought it to bear.

Paris, Auguſt 19. The Committee of Council appointed to conſider the Affairs of the Clergy, have finiſhed their Meetings, and made their Report to the King: The Publick in general expreſs a great Impatience to know its Contents, but it is apprehended they will not be gratified in Haſte.

The Hague, Auguſt 23. The Conferences at Bruſſels are ſuſpended; the Auſtrian Commiſſaries have demanded the Revival of the Oſtend Company, to which the Maritime Powers are by no Means inclined; ſo that our Hopes of any Succeſs in that Affair are in a great Meaſure loſt.

Some Intelligence from Paris repreſent the Expence of the Government as unuſually high for many Months paſt; from whence they conjecture, that ſomething of the laſt Importance muſt be on the Carpet; and are alſo inclined to believe, that it is on the Point of becoming publick, broad Hints being given that Italy will be the Scene of Action.

Turin, Auguſt 14. The King, by Virtue of his Acceſſion to the Treaty of Madrid, has obtained the Guaranty which his Majeſty demanded in Reſpect to Sardinia. The King of the Two Sicilies has defired the King to make a ſolemn Renounciation of the Kingdom of Sicily, which had been given to the Houſe of Savoy by former Treaties, which has been complied with.

Copenhagen, Auguſt 19. The King being deſirous of giving the Eaſt-India Company a freſh Mark of his Favour and Protection, has preſented them with a Man of War of fifty Guns, worth 30,000 Crowns.

Hanover, Auguſt 25. The Earl of Hindford arrived here Yeſterday from Vienna, and repaired immediately to Herenhauſen, where he was received by the King with great Diſtinction.

By the Acceſſion of the Duke of Modena to the Treaty of Madrid, the Intent of that Treaty is entirely accompliſh'd. If the Affairs which relate to the Empire have not been brought to the Point of Perfection, which all good Patriots wiſh they might, the World has however the Satisfaction of having determined, during the Diet in Germany, the grand Work of eſtabliſhing Peace in Europe.

Baron Walmode, Son of the Counteſs of Yarmouth, was married the 22d Inſtant to the third Daughter of Baron Steinbergen, Miniſter of State to this Electorate.

Vienna, Auguſt 10. Frequent Councils are held here, to conſult the moſt proper Means for quieting the Minds of the Malecontents in Corſica, the Affairs of that Iſland ſtill continuing very much embroiled.

Liſbon, July 31. Several Men of War and Frigates are upon our Stocks, and will be finiſhed with all imaginable Expedition; our old Regiments are alſo recruiting, and our Fortifications putting in proper Repair; in ſhort, every Thing belonging to the State ſeems to carry a new Face ſince his Majeſty's Acceſſion to the Throne.

Peterſbourgh, Auguſt 12. The Baron de Poſſe, new Envoy from the King of Sweden, having had his publick Audience of the Empreſs and their Imperial Highneſſes, has informed the Miniſtry, that he was charged to continue the Negotiation begun by his Predeceſſor, in order to give the finiſhing Stroke to the Affairs which remain undetermined between the two Courts. There is no Doubt but that this Negotiation will, in a ſhort Time, be conducted to a happy Succeſs through the Diſpoſition which there appears to be in both Parties, to co-operate, as much as in them lies, to the Eſtabliſhment of a good Underſtanding.

Leghorn, Auguſt 14. Letters from Tunis, of the 26th ult. bring Advice, that Sydy-Jones (tired of wandering in the Mountains, and endeavouring to reach the Territories of Algiers) had been ſurrounded in his March by the Troops of the Dey of Conſtantine, who took him Priſoner, and conducted him to the Caſtle of that City. Sydy-Jones had with him a conſiderable Treaſure, conſiſting of three Millions of Sequins in Gold, beſides his rich Armour and Accoutrements adorned with Jewels; of all which he has been ſtripped; and the next Thing is to know what Treatment this unnatural Son is to expect from his much-injured and incenſed Father, ſuppoſing he is delivered into his Hands, which ſeems at preſent very likely.

Vienna, Auguſt 19. An Expreſs is arrived from Conſtantinople, having been diſpatched by Baron de Penckler, their Imperial Majeſties Miniſter at the Porte, with Advice that the Effects of the late Revolution in the Ottoman Miniſtry were to be dreaded, moſt of the Grand Signor's Favourites having been diſmiſſed from their Employments, and the Face of the Divan being entirely changed. It is hoped nevertheleſs, that his Sublime Highneſs will perſiſt in his Intentions of continuing in Peace with the Chriſtian Princes.

Hanover, Auguſt 25. The Marriage of the Baron de Walmoden, eldeſt Son of the Counteſs of Yarmouth, with the third Daughter of the Baron de Steinbergen, Miniſter of State and of the Council of Regency of this Electorate, was celebrated at Court laſt Tueſday, and all the chief Nobility aſſiſted in the Ceremony.

Liſbon, July 31. The three Men of War that convoyed the Fleet bound for Mozambique to a certain Diſtance, and afterwards went on a Cruize againſt the Corſairs of Barbary, are all returned into Port, without having met with any of thoſe Pyrates. They continue, by the King's expreſs Orders, to raiſe Recruits in the different Provinces of this Kingdom, in which, by the Liſts that have been lately ſent to Court, they have been very ſucceſsful; and it is ſaid, that after the old Regiments are all complete, ſome new Ones are to be formed.

Rome, Auguſt 16. The Pope has ſent preſſing Orders to M. Durini, his Nuncio at the Court of France, to uſe his beſt Endeavours to reconcile the Differences that at preſent ſubſiſt between the Clergy and the Parliaments of that Kingdom. The Pope has conſented to empower the Superiors of the Dominicans, Jeſuits and Capuchins, who are employed in Miſſions to the Eaſt Indies, to adminiſter the Sacrament of Confirmation, in Quality of Apoſtolical Vicars, which Power was heretofore confined only to Biſhops.

Hague, Auguſt 31. We hear from Bruſſels, that the Conferences for ſettling the Barrier and Tariff, which had been ſuſpended for ſome Days, were renewed again Yeſterday, when the eighth Conference was held, the Reſult of which is kept ſecret.

Liſbon, Auguſt 22. It is confirmed, that the Miſunderſtanding between this Court and that of Great-Britain, in regard to the Gold Coin of this Kingdom being carried out of it by the Subjects of the latter, has been intirely regulated during the Stay here of the Lord Tyrawly. The Indiſpoſition of the King hindred his Majeſty from perſonally taking Leave of that Nobleman; but he cauſed one of his Secretaries of State to tell him, "That his Majeſty was extremely well ſatisfied with the Pains which he had taken for the Advantage of the Commerce of the two Nations; that he hoped, by Means of the Regulations which had been agreed upon, no more Difficulties would ariſe of the Nature of thoſe which had been adjuſted; and that in the Letter which he had wrote to the King of Great-Britain, he had more fully explained his Sentiments in this Reſpect, and how agreeable the Choice, which he had made of his Excellence to execute this Commiſſion, was to his Majeſty."

Madrid, Auguſt 22. We are informed by Letters from Genoa, that a great Number of Ship Carpenters have lately been embarked there, in order to be tranſported to the ſeveral Ports of this Monarchy, and to be employed in building Men of War, and other Ships for the King.

Cracovia, Auguſt 22. According to the laſt Letters from Conſtantinople, we look upon the late Revolution there, as the Prelude to a more terrible One, which ſeems to threaten even the Grand Signor himſelf. The Depoſitions, the Baniſhments, and the moſt tragical Executions, have not appeaſed the Janiſſaries. It is not merely the Diſgrace of Favourites which they demand, but the Reſolution of the Maſter which they take upon them to govern according to their Liking. The Inclination of his Highneſs is peaceable, and they want to force him to incline otherwiſe. In ſhort, theſe Mutineers don't ſcruple to cry, in a bold and imperious Manner, "Either a War, or another Sultan." In ſo critical a Situation, the Grand Signior knows not what to reſolve upon. He is in Peace with the European Powers, and it is againſt them, as it is pretended, that the Janiſſaries demand to march. If his Highneſs purſues his pacifick Diſpoſition, he runs a Riſk of being depoſed, and the greater, as Soliman, who is a warlike and enterpriſing Prince, will then, probably, mount the Throne.

The Treaſures which were found in the Houſe of the Kiſler Aga, of which he himſelf ſent Keys to the Grand Signor, are immenſe, and almoſt incredible. They compute them at 80,000 Purſes of 500 Crowns each; that is, forty Millions of Crowns; a Fund ſufficient, as the Janiſſaries pretend, to carry on the moſt vigorous War. One cannot eaſily form an Idea of ſuch vaſt Riches being in the Poſſeſſion of any Subject, and eſpecially in that of an Ottoman Slave: But when it is conſidered, that the Kiſler Aga, by the Aſcendant which he had over the Grand Signor, was in a Manner ſole Maſter of their Empire, and its Treaſures, and that he oppreſſed the People with extraordinary Taxes, of which he gave no Account to any Body, the Thing does not appear impoſſible, and one may the more eaſily conceive it.

Francfort, Auguſt 31. The Proteſt of the Electors, of Cologn and Palatine againſt the Convocation of the Electoral Diet, contains almoſt the ſame Motives as are ſet forth in the King of Pruſſia's Letter to the Elector of Mentz. In the Elector's Anſwer to this Proteſt, he declares, "That he is too ſtrongly attached to the Support of the Laws and Conſtitutions of the Empire, to take any Step which ſhould be contrary thereto: But that theſe ſame Laws and Conſtitutions, the Obſervance of which will be always ſacred to him, authorize him to convoke the Electoral Diet whenever he is required to do ſo by the Majority of the Electors: That therefore he is perſuaded that in conforming to their Deſire upon this Subject, he ſhall do nothing which may be a ſufficient Foundation for a Proteſt, &c."

Paris A-la-main, September 4. Laſt Friday Mr. Moore, an Iriſhman, and the Baron de Starke, a German, proved, before the King at Choiſy, a Mortar of their Invention, which was diſcharged more eaſily, and in much leſs Time than other Mortars; they diſcharged fifteen Bombs of 50 lb. in leſs than five Minutes, and the Bombs followed each other with ſuch Velocity, that two of them were often ſeen in the Air at the ſame Time. His Majeſty appeared well ſatisfied with this Invention.

This Morning was publiſhed an Arret of the King's Council of State, diſanulling that which the Parliament iſſued laſt Week, which condemned a Writing, in Form of a Letter, written to the King, to be torn and burnt. It is ſaid in this Arret, that his Majeſty was aſtoniſhed that the Parliament had paſſed a freſh Judgment upon an Object which had been determined by his Majeſty; that ſuch Proceedings could not be too ſpeedily and too ſeverely curbed, and that therefore he diſanulled that Arret as being an Infringement upon his Authority, and forbad his Parliament from iſſuing the like for the future.

Leghorn, Auguſt 18. The Corſicans are in greater Agitation than ever. The Malecontents beyond the Mountains have choſen four Chiefs, who have publiſhed an Ordinance, whereby thoſe who ſhould dare to propoſe any Thing in Favour of the Republick, are ſubjected to ſevere Penalties. Theſe Chiefs having heard that an Officer and ſome French Soldiers were killed in the Territory of Alba, they ſent a Detachment, with Orders to plunder and burn that Place. Five hundred Men, who are ſupported by a flying Squadron, patrol on this Side the Mountains, and arreſt and hang, without any Form of Proceſs, all thoſe whom they ſuſpect to hold Correſpondence with the Government of Genoa. This Party in ſuch Manner prevents Proviſions from being carried to Baſtia, that they are obliged to cauſe them to be fetched from Tuſcany.

Madrid, Auguſt 15. The King has charged his Miniſter at the Court of Great-Britain to ſollicit ſeveral Advantages in Favour of the Commerce of his Subjects in the Britiſh Ports. 'Tis ſaid, that theſe Advantages are to counter-balance thoſe which the King will grant to the Britiſh Subjects in the Weſt-Indies.

The Merchants of Cadiz will, next Year, equip, at their own Expence, ten Xebecks, and two Frigates of twenty Guns each, to cruize againſt the Corſairs of Barbary. 'Tis ſaid, there is Advice from Buenos-Ayres, that the King's Commiſſaries, ſent into America to take Poſſeſſion of Nova-Colonia, yielded to Spain by his moſt faithful Majeſty, have found the Inhabitants unwilling to ſubmit to the Spaniſh Government.

Vienna, Auguſt 26. *Great Attention is had here to the News from Turkey. The new Grand Vizir is not liked by the Janizaries: They want to ſee at the Head of Affairs a Man as turbulent as themſelves; they therefore demand that he be put out of that Poſt, and that the famous Baſhaw of Rhodes (a moſt enterprizing Man, as appeared by the Conſpiracy which he formed whilſt he was a Priſoner at Malta) ſhould be placed in his Stead.*

LONDON,

Auguſt 20. *Yeſterday* 309 *Kegs of Britiſh Pickled Herrings, brought by the Diſpatch, Nicholas Sandwell, Maſter, from Shetland, were ſold at the Royal-Exchange Coffee-Houſe, Threadneedle-ſtreet. They ſold, on an Average, at about* 27*s. per four Kegs, or* 6*s.* 3*d. per Keg. There appeared a very great Spirit among the purchaſers; who were ſo numerous, that the Liſt of their reſpective Names would be too prolix for our Paper.*

The Invincible Man of War, repairing at Chatham, is ordered to be finiſhed forthwith and victualled, in order for the Sea.

Auguſt 25. *Laſt Week the Right Hon. the Lord Baltimore, Son to the late Lord Baltimore, arrived in Town from his Travels in the South of France, and other Parts of Europe.*

Laſt Thurſday the Lord Biſhop of Cloyne arrived at Oxford in pretty good Health, conſidering his Age. His Lordſhip was brought in a large Bed-Carriage.

Several more Men of War will ſoon be put into Commiſſion, and others in Commiſſion are ordered to be got ready for Sea with all Expedition.

On Saturday Evening laſt, after a Week's Illneſs, died, at his Houſe in Aldermanbury, William Whiſton, M. A. ſome Time profeſſor of the Mathematicks in the Univerſity of Cambridge; he was born December 9, 1667, *admitted a Student of Clare-Hall in* 1686, *and choſen a Fellow of that College* 1693. *In* 1700 *he was appointed by Sir Iſaac Newton to read Lectures for him, and in* 1701, *was, by the Recommendation of that great Philoſopher, choſen Mathematick Profeſſor on his own Reſignation, which Chair he filled till* 1711, *during which Time, he ſo clearly explained the Newtonian Philoſophy in his Mathematical and Aſtronomical Lectures, which he then publiſhed, as to introduce into the Univerſity a noble Syſtem, which till then was not underſtood but by a very few, and thoſe deep Geometricians.*

Our laſt Letters from Genoa acquaint us with an odd Accident that has happened there: A Barrel of Gun-powder paſſing along the Streets to the Arſenal, a Spark of Fire, or rather red hot Iron, from a Farrier's Shop ſtruck into it, by which five Perſons in the Streets were killed upon the Spot, ſeven more dangerouſly wounded, ſome of whom are ſince dead, and ſeveral Houſes and Shops were conſiderably damaged.

Auguſt 27. *It is reported that a Squadron of Men of War will be ſent to the Weſt-Indies, in order to oppoſe the Depredations of the Spaniſh Guard de Coſtas.*

Commodore Keppel, with all the Ships under his Command, is arrived at Portſmouth from the Mediterranean; upon which Station he has been upwards of three Years.

By a Veſſel arrived at Amſterdam from the Muſquito-Shore, there is Advice, that ſhe was drove off the Coaſt by the Spaniards, who took

ſince in the Storm, from her Station, and beat to Pieces.

took Capt. Mosely on the Coast from the Bay of Honduras, and four or five English Vessels going to the Bay. There were then one Man of War, one Chebeque, a Sloop, and two Periagers; therefore it is improbable for any Vessel either going or coming to escape; so that it appears as if the Spaniards were determined to rout out the English Ships. Capt. Mosely came out of the Bay along with Capt. Rand, who arrived at Amsterdam about five Weeks ago. In Consequence of the above News, the Jamaica Merchants have appointed a Meeting of all Persons principally concerned in that Trade.

Private Letters from Constantinople, by the Way of Venice, give a very bad Idea of the new Grand Vizir. He is said to be a Man of a cruel and rugged Disposition, unpolished and untractable in Regard to Address, a Bigot in Point of Religion, and one who has raised himself to this high Employment chiefly by shewing an outrageous Hatred to Christians. It is for this Reason concluded, that if he remains in Power any Time there will be a War; and the only Question is on which Side it will begin, and there is good Reason to believe the Turks will make that Discovery as difficult as possible.

They write from Italy, that though the Government at Genoa set as good a Face upon the Matter as they can, the Stay of the French Fleet at Ajaccio is very uneasy to them. The Pretence is the Confusions at Tunis, where the French Minister has been ill treated, and the Necessity of observing how well the Treaty lately concluded with the Bashaw of Tripoly will be complied with. But it is reported these Strangers take Pains in viewing the several Ports in the Island, are exceedingly complaisant to the Natives, and express mighty Concern that so plentiful and well situate a Country should be so little improved.

August 29. *Some Advices from France inform us, that Orders have been sent to their Ports to compleat, without Delay, whatever Ships are upon the Stocks; and to equip, as expeditiously as possible, such as have been ordered for Service. It is added, that Directions have been also given for putting two Seventy Gun Ships upon the Stocks, and to proceed with them as fast as may be.---In this Season of Peace and Negociation, it is not easy to guess the Meaning of such an Armament.*

Yesterday 29 whole Barrels, 7 half Barrels, and 181 Kegs, of the Society's Shetland Pickled Herrings, were sold at the Royal-Exchange Coffee-House, Threadneedle-street. The whole Barrels sold, on an Average, at 2l. 12s. 6d. each; the half Barrels at 1l. 9s. 6d. and the Kegs (four in a Lot) at 1l. 7s. each. The Purchasers were very numerous, and bid with so great a Spirit, that the Sale lasted but a short Time.

Within these few Days past five new Busses have been launched for the Service of the British Fishery, which are called the Anti-Gallican, Canterbury, Halifax, Anson, and Norwich.

We hear from Scotland that her Grace the Dutchess of Hamilton is far advanced in her Pregnancy, and great Preparations are making for her Grace's Lying-in: Her Grace has given Orders that every Thing shall be made of the Produce of Great-Britain. A noble Example! worthy the Imitation of the Great, and all true Lovers of their Country. Were Examples of this Kind in general set by our Nobility, it, like a Fashion, would be followed by all; then would our Manufactures encrease, Trade flourish, and Great-Britain bid Defiance to all her Foes.

On Wednesday last the Lords of the Admiralty were pleased to order the St. Albans, a sixty Gun Ship, to be put into Commission.

The Jason Man of War, that lately sailed from Portsmouth, is gone for America, with Instructions to the several Governors in those Parts.

According to some Advices from Copenhagen, an Officer of the Marine, who has been twice or thrice at Greenland, has laid before some of the principal Officers of the Navy his Reasons for supposing there is an open North-West Passage into the South-Seas, founded chiefly on his own Observations and Facts, certified at his Instance, by the principal Inhabitants of the Danish Colony, in the Country before-mentioned, and the Seamen who have been employed in Davis's Streights. It is said this Dissertation is equally ingenious and curious, but it is not thought proper to commit it to the Press.

They write from Cadiz, that from certain Circumstances they collect, the Court has not lost Sight of the Design aginst Algiers, which was only postponed 'til the Treaty was concluded for securing the Tranquility of Italy. Some very experienced Officers and Ingineers have been invited from Malta, who are well acquainted with the Place and of the Moors Manner of fortifying and fighting, and others who have had Opportunity of getting Intelligence on that Head are encouraged to give in Memorials, notwithstanding that it is thought nothing will be actually undertaken before next Summer.

We hear from good Authority that his Majesty intends to set out for his British Dominions as soon in October as the publick Affairs will admit of.

A considerable Number of Seamen are ordered to be draughted from the Guard-Ships, to Man the St. Albans, Invincible, and another Man of War fitting for the Sea.

Extract of a Letter from Gosport, August 27.

"Tuesday Night we had a violent Storm of Wind, which blew very hard from S. E. to N. W. in which Storm his Majesty's Sloop Wasp was drove ashore, and was obliged to cut away her Masts to save the People, which was effected without the Loss of a Man. Yesterday she sailed into the Harbour with Jury-masts, to be refitted."

September 1. They write from Stockholm, that in his Swedish Majesty's Tour into Finland, the Magistrate of Terneo told the King, they had nothing in their Country to make him any Amends for the Fatigues of coming to see them, but if his Majesty's Affairs required it he would bring his Townsmen to Stockholm, there to hazard their Lives in his Majesty's Defence.

The Bland, English, from London to North Shields and New-England, is lost at North Shields. And a Snow, Name unknown, from Carolina to Leith, is lost to the Northward of Shields. The Judith, Robinson, from Lynn, for London, with Corn, is lost, but the People saved.

Yesterday it was reported, that a Vessel bound for America, with indentured People on board, was lost off the Lizard, and that all the People on board perished.

The Foreign Gazettes say, that the Count de la Puebla, the Imperial Minister at Berlin, and a distinguished Favourite with his Majesty of Prussia, has procured Leave from his Court to go for two Months to Carlsbad, on Account of his Health.---Private Letters intimate, that, under this Pretence, he will make a Tour to Vienna, in order to communicate an Affair of such Importance, as it was not judged proper to trust to the Carriage of a Courier.

By some Advices from Spain we hear, that the Court being intent on encouraging the Manufactory of printed Linnens, lately set up in that Kingdom, has forbid the Importation of all foreign Manufactures of this Kind in the Port of Alicant. They likewise tell us, that the said Court, as a Proof of its Desire to keep up a good Understanding with Great-Britain, has sent Orders to his Catholick Majesty's Governors in America, to pay in Money the Value of the Captures that shall be proved to have been illegally made. We also hear, that the Spanish Ministry have lately sent over a Memorial to the Regency here, relative to divers Privileges which they pretend his Catholick Majesty's Subjects are intitled to in the Ports of England; and that the said Memorial has been since sent to Hanover, for farther Consideration.

Sept. 14. A List of Vessels lost on the Coast of Cornwall, in the late Storm, viz. Daniel, Panouret, of and for Guernzey, lost, the Crew saved. William and John, Dare, of and for Sandwich, ditto. Unity, Diamond, from Padstow for London; and a new Brig, Rondel, from Milford, lost; one Man only saved. Two Brothers, Gardner, from Drogheda to London, lost; one Man drowned. The Esther, Ball, and -----, Norman, from Swanzey, ashore. A Brig belonging to Mr. Bozacot, of Comb, lost, the Master drowned. To the Westward of St. Ives two Vessels are lost, and all the Crews perished; one of them from the Masts and Rigging come ashore, must be a Vessel of 3 or 400 Tons. The Cæsar, Hamerton, with Provisions, from London for Plymouth, is put into Cowes with five Feet Water in her Hold. The Catherine, Harris, from London for South-Carolina, is put into Portsmouth, having received much Damage. The Constant Matthew, Storm, from Petersburgh for Bristol, is put into Dartmouth, with the Loss of his Mizen and Main-topmast: Capt. Storm parted with the Wilson, Bosvick, from Petersburgh for Dublin, the 27th ult. all well. The Fearon, Sutcliffe, from London for Barcelona, with Corn, is put into Dungeness, having received Damage. The Three Brothers, -------, from Bristol to Bayonne; the Plymouth Merchant, Broad, from Bristol to Plymouth; and the Squirrel, Payne, from Bristol to Frederickstadt, are lost in Bristol Channel. The Wilmington, Scot, from London and Falmouth to Milford, is lost off St. Ives, and all the Crew except the Mate and a Boy perished.

The last Amsterdam Gazette tells us, that the Reports of the Enterprizes of the French in the East Indies are groundless: That they have committed no Hostilities against our Settlements, neither at Surat nor at Tillicherry; that all the Trouble our Company had, was with the Natives of the Country, who endeavoured to expel the English from those two Places; but after some smart Skirmishes, they abandoned that Enterprize, and Tranquility was immediately restored. The same Gazette likewise informs us, that there is no more to be said about the Conferences at Paris between our Commissaries and the French, the Demands made by the latter having entirely suspended them.

Sept. 16. The Lords of the Admiralty have been pleased to order two Men of War of forty Guns, and one of twenty, to be got ready for the Sea with all Expedition.

Edingburgh, August 25. They write from Anstruther, that they have had the greatest Take of Herrings there last Week that has been these 20 Years past, having taken about 500,000 in the Sight of that Town in one Day; but that now the Shoal seems to have left that Coast.

Charles-Town (in South-Carolina) September 26.

The Ship Lucy, Capt. Bulman, has been got off since our last; as are also two of our Pilot-boats, the Schooner that lay against the old Custom-House Door, and two or three other small Schooners: And they are now endeavouring to get off some of those that are ashore on James-Island.

In the late Hurricane, hardly a House was left standing on White Point; the Batteries near Mr. Mortimore's, Mr. Rattray's Garden (in which was a Magazine of Gun-powder) and upon Conselliere's Creek, were entirely beat down, and carried away; the greatest Part of Broughton's Battery was beat to Piecs; and the new Works on the Land Side of this Town, received considerable Damage.

The Ship Telemachus, of Liverpool, Capt. Feartlough, that lay at Mr. Child's Bluff, 20 Miles up Ashley-River, broke all her Holds, and was drove upon the Marsh oppositethe said Bluff; and the Ship Eagle-Galley, Capt. Timothy M'Daniel (which lay at the same Place) was drove almost as high as Dorchester, into Col. Izard's Creek. The Owners Goodwill, Capt. Moreland, was drove against Mr. Cattell's Bluff, in the Beginning of the Hurricane, and off again when the Wind shifted.

The Brig. Experiment, Edward Carleton Master, from Barbados, for Georgia, has been spoke with on the Coast, since the Hurricane, all well on board.

The Bristol Merchant, Parsons, and the Nancy, Copythorne, were well at Port-Royal since the Hurricane, having rode it out; as did also the Nancy, Capt. Connor, at Winyaw.

From Georgia we hear, that the late Hurricane has been felt there, and incredible Damage done to the Trees, but that no House or Vessel was hurt; the Tide being 4 feet lower than usual.

October 3. On Saturday last we had here another terrible Hurricane, which began, with Wind and Rain, about 4 a Clock in the Afternoon, but ceased soon after 7 in the Evening. For two or three Days before, the Violence of the Wind (which blew from N. E. and E. and at last settled at S. E.) and the great Quantity of Rain that had fallen, kept the Tides from ebbing their due Course and Time, so that when this Hurricane began to abate, tho' the Water should have been low, it was higher than at common Spring-Tides; and had the Wind rose, as was expected, when the Flood should have come in, our Situation would have been most deplorable indeed! But the same Providence that interposed before, was visible here. In this Town, it did little or other Damage, than to the Goods of those People who removed from the most exposed Places, and the Tops of some Houses: But at Winyaw, we are informed, it was more severely felt than the former. About Midnight the Wind veered round to N. W. when another violent Storm broke up the bad Weather.---We have daily such a Number of melancholly Accounts from all Parts of the Country, of the Damage and Losses sustained on the 15th and 30th ult. that they would afford endless Matter for this Paper, were we to publish them.

In the late Hurricane, the Snow Vine, of Liverpool, Robert Rankin Master, from Barbados, for this Port, with Sugars and Slaves, was drove in from Sea, and stranded upon Cummins's Point, about a League from our Bar: The Cargoe and People in her are saved. The Ship Africa, Capt. Dorrington, was also stranded, at a Place called Mellichamp's Island; and Capt. Tucker's Schooner of this Port, that went to take out the Africa's Cargoe, drove ashore.

Since our last, the Sloop Polly, Capt. Gore, bound for Barbados, the Schooner Elisabeth, Capt. M'Gillivray, the Sloop Nancy, Capt. Babb, and a Schooner belonging to Capt. Baker, that were driven into a Plantation at Wappoo, and into Col. Heron's Pasture, on the fifteenth ult. have been got off, and are fitting for the Sea. The Sloop Betsey, Robert Jones Master, from Philadelphia, for this Port, and a Snow from Nova-Scotia, have put in to Edisto Inlet.

The Master of a Schooner from Georgia, in his Passage saw 5 or 6 Vessels at Sea, off St. Helena, of which some seemed to be dismasted; but he did not speak with any.

Yesterday arrived here, the Snow Rowand, Capt. Arthur Tran, from Rotterdam, with near 300 German Passengers.

October 9. On Wednesday last arrived here the Ship Live-Oak, of this Port, Capt. Rodger, from London: He was on the Coast the 30th ult. when the last Hurricane happened, and in it lost his Best-bower Anchor and Mizen-yard, had some of his Sails torn to Pieces, shipped several Seas, and received other Damage. The Day he came in, he saw a Snow off the Bar, that had only her Main-mast standing.

Since our last we learn, that the Hurricane which happened on the 30th ult. has done greater Damage at Sea and to the Southward, than that of the 15th: Abundance of Trees and several Houses having been blown down that did not suffer before: At Port-Royal the Water rose four Feet and a Half higher than usual, and a Sloop was drove ashore that entirely beat away Mr. Purry's Wharff: A Sloop from Rhode-Island, -------- Waldron, Master, bound for this Port, put into Edisto, lost all her Anchors, Bowsprit, Sails, Boat, &c. the Captain wash'd out at one of the Port-holes, and thrown in again: The Schooners Betty, John Mills, from Maryland with German Passengers, and the Minerva, Isaac Colcock, from Philadelphia, were obliged to put into Edisto: The Snow Bristol Merchant, Capt. Parsons, from Bristol for this Port, with a very valuable Cargo on board, that sail'd to come round from Port-Royal after the first Hurricane, lost her Bowsprit, Sails, &c. in this; and is since beat to Pieces upon Edisto Bar, the Vessel and Cargo entirely lost: A large Sloop, whose Quarter was painted green and white, drove ashore and beat to Pieces upon Kayward Island, none of the People, but many Limes found: Capt. Tedar's Snow drove into a Marsh at St. Helena; near which Inlet another Snow from Sea, is said to be beat to Pieces: A large Ship beat to Pieces upon the Hunting Islands. And another Sloop said to be ashore upon the Southern Coast.-----'Tis reported, that a Ship and Sloop are also ashore upon the Racoon Keys.

The Ships Eagle Galley, Capt. M'Daniel, and Telemachus, Capt. Feartlough, put ashore on the 15th ult. near Dorchester, have been got off since our last; as are also, the Schooner Betsey, Capt. Hutchins, of this Port, that was overset upon James-Island. The Ship Africa, of Barbados, and Snow Vine of Liverpool, drove ashore on the 30th ult. are since beat to Pieces, but their Cargoes have been saved; and Tucker's Schooner has been got off. The Ship Charming Sally, Capt. Spencer, from London for Winyaw, is put into Port-Royal.

Yesterday came Advice, that the Brig Carolina, Capt. Boyd, and for this Port, from Philadelphia, and the Ship Caledonia, Cap. Harwie, also of this Port, with German Passengers, put into Savannah in Georgia, on the 2d inst.----Capt. Boyd writes, "That in the last Hurricane (which he met with in Lat. 34, and 16 Fathom Water, on the 29th ult. and continued till 12 a Clock the next Night, the Wind at S. E.) he lost an Anchor from his Bow, had his Caboose carried away, one of his Men wash'd overboard (but happily wash'd in again) his Vessel continually filled with the prodigious Seas that beat in upon her, and his Sails much damaged, so that he every Moment expected to sink, or be driven upon the Breakers; but that about One a Clock on Sunday Morning, the Wind suddenly whirl'd about to the N. W. and blew him off." He saw several Wrecks on the Coast.

The Sloop towed in here by the Cunliffe, on the 19th ult. was the Lucretia, Philip White, Master, belongs to Santa Cruz, was bound from Jamaica for Port Royal, and lost her Mast, Sails, &c. on the 15th.

All the Papers, &c. in the Surveyor-General's Office, were five Feet under Water in the first Hurricane, many of them wash'd away, and the rest are in a perishing Condition, tho' the utmost Care has been taken of them.

The Loss this Province has sustained, in Trees only, by the late dreadful Hurricanes, may be better conceived than it has been, by informing our Readers, that it was chiefly the largest and best that have been blown down and broke; that many Plantations and most of the Islands, have none of those left standing on them; that Mr. Beresford (whose whole Loss amounts to upwards of 20,000 l.) has lost in this Article alone (from one Tract of Land not far from this Town) to the Value of 10,000 l. And that the Roads in most Parts of the Country, were rendered impassable 'till cleared.

Vessels still ashore. His Majesty's Ship, Mermaid, at Hobcaw; Snow Charming Nancy, of Hull, Charles Cookson Master; the Snow Dove, John Tuppen, of Cowes; the Brig. Peggy and Betty, William James of Bristol; Brig. Two-Friends, Robert Jones, of Falmouth; Sloop Industry, Uriah Davis, of New-England; Pilot-boat, and 5 Schooners, besides small Craft, in and about this Town. Also the Snow Industry. The Ship Upton, Gardiner, Liverpool; Sloop Susannah, Minot of this Port; 3 Pilot-boats and 9 Schooners, &c. at Wappoo, and upon James's Island.

Halifax, in Nova-Scotia, October 21.

On Saturday last his Majesty's Ship Torrington sail'd from this Place, on board of whom was the Hon. Edward Cornwallis, Esq;

On Sunday last arriv'd here a Schooner, which brought Captain Piggot, and two Indian Chiefs of a Tribe inclin'd to settle a Peace with this government; they have been several times before the governer and Council, but the Result of their Conferences we have not yet learnt.

Yesterday Captain Piggot, and the two Indian Chiefs, above mention'd, sail'd from this Place, in order to bring up more of their Tribe to be at the Conference.

NEW-YORK, November 13.

Capt. Herring from Providence in 21 Days informs us, That on the 23d of September last, they had a violent Gale of Wind at Crooked Island, which oblig'd all the Providence Wood-cutters then there, either to run ashore, or cut away their Masts; that Geese, Ducks, Turkies, Hogs, Sheep, Shingles, and the Pump of a Vessel of 9 Feet Hold, with the Main-mast of a Schooner, were found upon that Island, but no Vessel nor People to be seen; that two Ships were fast upon the Hog-flies; at which Place a Sloop, belonging to Capt. Adams of Bermuda, was, with her Cargo and two Men, lost; the Captain, and the rest of the Crew, arriv'd at Providence the 6th ult.

PHILADELPHIA, November 16.

Friday last being the King's Birth-day, when his Majesty enter'd his seventieth Year, the same was observ'd here with the greatest Solemnity. His Honour the Governor gave an Entertainment on the Occasion at Noon at his Seat at Bush-hill, where all the loyal Healths were drank, under the Discharge of Cannon from the Association Battery, and many of the Ships in the Harbour, which being near 100 Sail, with their Colours display'd, &c. made a fine Appearance. In the Evening there was a grand Ball at the State-house, at which were present upwards of one hundred Ladies, and a much greater Number of Gentlemen, who form'd the most brilliant Assembly that had ever before been seen in this Province. The whole Company were elegantly entertain'd by his Honour there at Supper in the Long Gallery, and every Thing conducted with the greatest Decorum, and to general Satisfaction.

A Letter from Charles-Town, in South-Carolina, since the Hurricane, advises, that the Crops have suffer'd so much, that it is thought there will not be Rice enough to serve the Inhabitants; and that a Supply of Indian Corn will be wanted from the other Colonies.

Monday last a Court of Oyer and Terminer was held here, when Daniel Hurley was indicted for the Murder of James Clarke; to which Indictment he pleaded Guilty, and received Sentence of Death.

THE Royal Patent Medicinal Powder as Snuff, publiſhed under ſanction of the King's royal letters patent, being a medicine that hath gain'd ſo much credit for theſe many years paſt in Great-Britain and Ireland, by its operation on the head, diſſipation of vapours, and warm aromatic quality, it effectually cures recent lunacies, dizzineſs, and apoplexies, deafneſs, and weakneſs of ſight, breaks and carries off impoſthumations and ulcers inwardly or externally, quickens the ſpirits, and awakens them from a lethargic ſtate; has likewiſe a very good effect in all chronical caſes, carries off the ſtone and gravel, and brings away the polypus in the noſe, cures fits, agues, and pains in the head and gums in a few minutes, or a very little time, without drawing tooth or ſtump. By its power on the ſtomach and lungs, it gradually diſſolves coagulated matter; and by the channel of the noſe, by ſtool, urine or perſpiration, inſenſibly carries off every kind of putrefaction; and thus removing all obſtructions or oppreſſions on the breaſt, ſtomach, or lungs, it totally eradicates the aſthma, catarrh and phthiſic, recovers to the ſtomach and nerves their genial tone and action, and utterly annihilates all hyſterical diſorders. Its ſingular uſe and excellence conſiſts in its being pleaſant in the taking, happy in the operation, and morally certain in the cure. It hinders no buſineſs, eating or drinking, and not cauſing but curing colds, as will more fully appear, by peruſing a book explicitly opening and explaining its nature and operation, and many of the actual cures it has perform'd; which book may be ſeen and peruſed at Mr. Chriſtopher Marſhall's, at the Golden Ball, in Cheſtnut-ſtreet, Philadelphia, who is appointed by us the patentee and company, our only agent to vend and ſell the ſame, and no other, at Philadelphia.

As there seem'd to be an inclination in the inhabitants of this City, to have the steeple built upon the foundation laid many years ago, the Vestry were encouraged to attempt a Subscription; but as the money they could raise, including what little is yet outstanding, falls much short of the sum necessary to compleat the work, as will be shewn by a state of the account of what is already done, they are therefore under a necessity to take this method, or the building remain unfinished.

We hope that a work of this kind, which is purely ornamental, will meet with encouragement from all well-wishers to the credit, beauty and prosperity of Philadelphia.

From the GENTLEMAN'S MAGAZINE, *for* September, 1752.

TURKEY.

THIS unwieldy despotic Empire, seems at present to be the Seat of Confusion. The Sacrifices lately made of the Grand Vizir, and the chief Eunuch, or Kister Aga, whose Treasures are said to amount to 10,000,000 Ster. have been followed by the Death of the Mufti. Yet all these Executions are looked upon as only Forerunners of the Deposition of the Grand Signior himself, unless he complies with the Spirit of the Janissaries, by commencing a War with the Christians, to debate upon which a Grand Divan is to be assembled.----By Letters dated August 14. from Smyrna, the Plague is said to rage there with great Violence.

GERMANY.

The Affair of the Election of a King of the Romans, which has been the principal Object of this Summer's Negotiation, is now very little talked of. The Court of Vienna is principally taken up with the important Advices from Constantinople, uncertain over what Place the impending Storm will burst. It has also been making Provisions for the proper Qualifications of future Ministers of State, and for the Education of Youth in the Martial Sciences. It has been used to satisfy the Pretensions of the Elector Palatine, as the Damages he received in the late War were the natural Consequences of his violating his Engagements to maintain the Pragmatic Sanction.

Tripoly (in Barbary) August 8. For some Time past this Regency had in their Service, on Account of their natural Bravery and Address for being employed at Sea, some Albanians, who lately, of their Number did not exceed 400, attempted to seize upon the City. To effect this Design, they secretly assembled in the Night of the 31st of July, and fell upon the City Guard, Part of which they killed, and disarmed the rest; they afterwards attacked the Castle, where they met with such Resistance, that perceiving they had failed in their Enterprize, they ran to the Port, in order to facilitate their Escape by Sea. They found an English Ship ready to receive into which they threw themselves with great Precipitation, and got to Sea; but 40 who were left on Shore were taken, and the next Day conducted to the Square of the Castle, and all beheaded. The Bashaw and Regency, not to expose themselves a second Time to the Danger which they so narrowly escaped, have resolved never to employ an Albanian again in their Service.

ITALY.

The civil War in Corsica is revived with greater Violence than ever. The French have taken the Part of the Pieves, on the other Side of the Mountains, who are irreconcileable Enemies to the Genoese; which seems to be an Artifice, either by their Means to get Possession of the Island, or to betray them. Mean Time, the Parties on the Island, one siding with the Genoese, and the other with the French, have had several smart Skirmishes, wherein the Loss has been principally on the Side of the former. The Genoese are assembling a large Body of Troops to protect the Commissaries in their Interest, and Giafforio, the Chief of the Malecontents, has called to Arms the Pieves that are most devoted to him, to seize the Posts of Alata, Olmeto, and Quenza.

SPAIN.

The Ministers of this Court being convinced of the ill Effects of their long Neglect of their Manufactures, and the immense Loss that Nation has sustained from the Ruin of 40,000 Looms, that formerly flourished in the Cities of Seville, Granada, and Toledo, which produced annually about 40 Millions of Crowns, have of late began to apply a Remedy. They have accordingly invited Workmen from all Nations, particularly England and Ireland, by offering great Encouragement; and after procuring from England, Cards, Shears, Looms, and other Utensils for the Woollen Manufacture, are now intent on the Manufacture of printed Linnens, lately set up, and have prohibited the Importation of all foreign Manufactures of that Kind into the Port of Alicant. The King has established a Military School for the young Noblesse, and is improving his Marine; for this Purpose Ship-Carpenters of all Nations are invited into Spain. Many are arrived from Genoa, and an Irishman of that Profession is engaged to build several large Ships at Cadiz. On the 22d of August, eighteen Tartans arrived at Cadiz from Naples, laden with Wood for building eight Ships of the Line, which are upon the Stocks there. Mean Time the King's Generosity, or rather Profusion to his Family, will appear strange to an English Subject, an Instance of which is, his having made a Present of 400,000 Crowns to the Dutchess of Parma, to defray the Charges of her Journey into France.

PORTUGAL.

Lewis Rodriguez, a Carpenter, lately died at Lisbon, in the 120th Year of his Age. He laboured for his Bread till within a Year of his Death.

FRANCE.

The Dispute between the Clergy and Parliament of Paris, continues with as much Heat as ever, and the Court sometimes inclines to one Side of the Question, and sometimes to the other, which only serves to encrease the Resentment of both. There have been great Rejoicings, and many Ceremonies, upon the Recovery of the Dauphin. [*So far from the Magazine.*]

Hanover, August 25. The Earl of Hyndford is arrived here from Vienna, after performing this long Journey at one Stretch, having stop'd no where but for Relays. Fatigued as he was, he went immediately to Herenhausen, where he had the Pleasure to see his Zeal and Dispatch answered by the most gracious Reception, and many kind Expressions from his Sovereign. He was a long Time with his Majesty, reporting his Negotiation at Vienna. This Nobleman depends on going speedily for England; and it is even said, that on Account of some News just arrived, the King himself, after a shorter Stay at Ghorde than he intended, will set out for his British Dominions.

Rome, August 12. There no longer remains any Prospect of accommodating the Difference between the Pretender and his Son the Cardinal, the former having declared, "That in Quality of King and Father, he did not think himself obliged to enter into any Conditions, and that he expected nothing less from his Son than an unlimited Obedience, Respect and Submission.

Paris, August 25. Ever since the Assiento Contract between England and Spain has been abolished, the French Ships have taken the Negroes from the Coast of Guiney, and carried them into the Spanish Colonies. They carry on this Trade with the greatest Profit, as they at the same Time supply the French Colonies. There is come here from China, on board one of our Ships lately arrived at Port l'Orient, several young Chinese, who are sent into France to be educated, and who are afterwards to be employed in their Country as Missionaries.

LONDON, August 29.

It is said, that seeing how much a Spirit of Commerce improves and extends itself in other Countries, an Application will be made next Sessions, to the Parliament of Great-Britain, for a strict Enquiry into the Extent of the Counties, the Trade which is granted to exclusive Companies, by legal Charters; how much is actually carried on, and why the Powers they enjoy should, in any Respect, remain dormant, since it is certain they were granted in Trust for the Benefit of the Nation, and not to cramp the Industry of Individuals, to no End.

September 16. Some Weeks past the Grave-digger at Chelwood, in Somersetshire, opened a Grave, wherein a Man who died of the Small-pox had been interred about thirty Years ago.----By the Deceased's Desire, he was buried in an Oak Coffin, which was now so firm, that it might have been taken out whole; but the Grave-digger not chusing that, forced his Spade through the Lid, when there came forth such a Stench, that he never smelt the like before. It being a Person of Credit that was to be buried in the Grave, the whole Village attended the Funeral, as well as many People from the neighbouring Villages; and a few Days after, fourteen Persons were seized in one Day with the usual Symptoms of the Small-pox; and in three Days more every Soul, but two, in the whole Village, who had not had it, were seized in the like Manner.---Their Disorder proved to be that Disease, and was so favourable, that no more than two Persons died of the whole Number, which was about Thirty; and one of them was a Woman, who came down Stairs when the Pock was at the Height, and died the same Night. The same Disorder was carried all round the Villages, by the Country People who attended the Funeral, and proved very favourable every where.

Sept. 26. This Day was held a general Court of the Free British Fishery, when a Vacancy in the Council was filled up by the Election of William Beckford, Esq; lately chosen an Alderman of the City. The proposed By-Laws were read, and the Blanks filled for allowing an Acknowledgment in Money for the Attendance of the Council and their Committees; their Meetings for conducting the Affairs of the Society having, hitherto, been voluntary and gratis, and the Attendance of Gentlemen not so full and constant as could be wished; but there being now near 50 Busses almost finished, and 1200 Seamen, with Nets, &c. in Proportion, to be provided, the Increase of Business requires the constant Attention of such Merchants and Maritime Gentlemen, as are Members of the Council. The Council are 32. The Sum proposed was 500 l. per Annum, to be divided by those that attend, and no Opposition was made to it. Admiral Vernon very pathetically represented the vast Injury done to the Nation, by a Swarm of three or four Hundred French Busses at this Time off Yarmouth, inforced the Necessity of our having a strict Eye to the Increase of our naval Power, by the Means of our Fishery, and warmly expostulated against Delay. Mr. Alderman Janssen, Vice-President, gave an Account of the Success of the Society's 18 Busses in the Shetland Fishery, and of the Sales, which, on an Average of those that had been disposed of at Bremen and at home, would be 9000 l. and the Tonage, and 3 per Cent. allowed for Encouragement, or as Draw-Back, being added, would amount to 12,670 l. whence deducting the Expence, and Ware and Tare, 7 per Cent. would remain for Profit. He added, that in future Years, by taking more Apprentices, 2 or 3000 l. might be saved. The Court broke up with great Chearfulness and Unanimity.

Sept. 28. Crisp Gascoyne, Esq; Alderman of Vintry Ward, was elected at Guildhall, Lord Mayor of this City, for the Year ensuing.

Extract of a Letter from Aberystwyth.

"On the 19th Instant came on Shore in a Boat 7 Frenchmen, the Crew of a French Vessel, after a miraculous Deliverance; their Ship, the Magdalen of Roan, Peter Barnard Commander, bound from Cork for Dublin, in Ballast, sunk about Ten a Clock in the Morning of the Sixteenth, near the Seltoes, the Capt. and his Men took to their Boat, and providentially arrived here. They had no Support for four Days but a small Keg of Cyder, two Bottles of Brandy, and a few Biscuits; they were in a very weak Condition, and very eager for Food, which was given them sparingly. They are all like to do well: They saved most of their Clothes, which they made use of upon the Stern of the Boat to keep the Sea out."

By the last Advices from Constantinople, we are informed, that the Conduct of the new Grand Vizir is quite opposite to that of his Predecessor; and, either through Policy, or from his natural Inclination, he appears outwardly perfectly conformable to the Sentiments of the Janissaries. He advises War not merely with a View to keep them employed; but upon a Principle of Necessity, in order to preserve that martial Spirit in the Nation, which might be enervated by a longer Peace. Upon this Pretence, he had engaged the Grand Signior to assemble an extraordinary Divan, to decide this important Question. Nevertheless, as several Bashaws of distant Provinces are to assist at this Divan; and as it will take up a great deal of Time for them to repair to Constantinople, it is suspected that this is an Artifice of the new Grand Vizir's to pacify the present Rage of the Janissaries, in order, afterwards, to make it appear doubtful what Step he intends to take. People are the more apt to look upon this to be the Case; because the Kan of the Tartars had not been invited to this Divan, as is usual when the Porte is going to declare War."

Extract of a Letter from Harwich, September 30.

"*Among other Losses sustained at Sea by the late high Winds, that of a Sunderland Collier was attended with the following Circumstances: She was wreck'd on the Baynard Sands, off the Coast of Zealand; and the Crew, consisting of ten Men, and the Captain, all perished but one, who was providentially taken up by the Dolphin Packet, Capt. Cockerel, and brought ashore here a few Days ago. This poor Wretch had floated on a Piece of the Wreck from Seven a Clock on Wednesday Morning, 'till Ten the Saturday Morning following. He had got upon it with two more; one of whom was soon washed off, and the other was found dead by his Side at the Time he was taken up. When the Captain described the Wreck, it was a great Way off; and not knowing what to make of it, he had once resolved not to delay his Passage by looking after it; 'till by the Help of his Glass, he thought he had discerned something alive upon it, and then ordered the Boat out to see what it was. The poor Man had lost his Senses; so that when they came up to him with the Boat, he struck at them, saying, 'What did they mean to molest him in his own Cobble; that he knew where he was, that he was off Scarborough, about his own Business, and would not be forced aboard any other than a King's Ship.' They told him they were a King's Tender, and were come to press him. Nay then, he said he must go; and called out to the other, come Jack, awake, 'tis a King's Ship, there is no Help for it, and we must go aboard. It was some Time before he was brought to his right Mind, when he related the Particulars of the Wreck; and added withal, that on the Thursday in the Evening, he was within Hearing of a Dutch Merchant, but could not by Shouts or Signs, make known to them his Distress. During the Time he was upon the Wreck, which was three Days and Nights, he was near drowning by the Waves dashing over him, and the last he remembers was, a Resolution he took to lie down and surrender himself to the Mercy of the Sea. He has had a good deal of Money collected for him in the Town, and was Yesterday taken on board a Vessel bound for Sunderland, to carry home the melancholy News of this Disaster.*"

Bristol, Sept. 23. *Thursday Night a most violent Storm of Wind began here, which continued till next Morning, during which several Stacks of Chimneys were blown down, as also a large Tree at a Place called Under-the-Bank, the Back of Horse-Street; and a Boy playing at the same Place, was blown into the River; but by the Assistance of some Men, belonging to the Severn Trows, he was taken up almost expiring. Most of the Ships in the Road were drove ashore; but have been got off. We hear that one of the new Passage Boats was drove ashore in the Storm, from her Station, and beat to Pieces.*

THE Royal Patent Medicinal Powder as Snuff, published under sanction of the King's royal letters patent, being a medicine that hath gain'd so much credit for these many years past in Great-Britain and Ireland, by its operation on the head, dissipation of vapours, and warm aromatic quality, it effectually cures recent lunacies, dizziness, and apoplexies, deafness, and weakness of sight, breaks and carries off impostumations and ulcers inwardly or externally, quickens the spirits, and awakens them from a lethargic state; has likewise a very good effect in all chronical cases, carries off the stone and gravel, and brings away the polypus in the nose, cures fits, agues, and pains in the head and gums in a few minutes, or a very little time, without drawing tooth or stump. By its power on the stomach and lungs, it gradually dissolves coagulated matter; and by the channel of the nose, by stool, urine or perspiration, insensibly carries off every kind of putrefaction; and thus removing all obstructions or oppressions on the breast, stomach, or lungs, it totally eradicates the asthma, catarrh and phthisic, recovers to the stomach and nerves their genial tone and action, and utterly annihilates all hysterical disorders. Its singular use and excellence consists in its being pleasant in the taking, happy in the operation, and morally certain in the cure. It hinders no business, eating or drinking, and not causing but curing colds, as will more fully appear, by perusing a book explicitly opening and explaining its nature and operation, and many of the actual cures it has performed; which book may be seen and perused at Mr. Christopher Marshall's, at the Golden Ball, in Chestnut-street, Philadelphia, who is appointed by us the patentee and company, our only agent, to vend and sell the same, and no other, at Philadelphia.
